GREAT CARS I REMEMBER

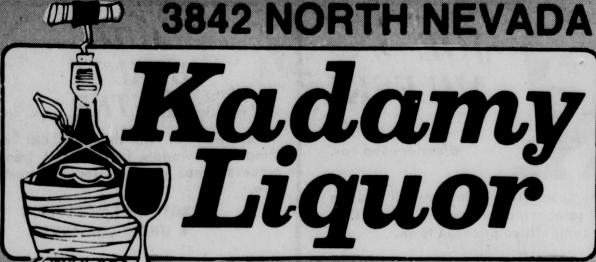

In 1949, OLDS Division innovated both body style and powerplant. The milestone "Futuramic" OHV V8 was gem-set into Olds' first post war major body re-styling and what a combo! Standard equipment was limited to column shift and coil spring suspension. Options included "whirlaway" hydramatic, radio heater, clock, outside mirrors, rear fender skirts and whitewalls. The ads said "Make a date with a Rocket Eight" and Americans with delight, more than 25 years ago.
